

steamer X3

Model fabrication

- _ Sturdy saturated vapour steam cleaner
- _ Attractive high-tech design, high-quality components
- _ Well thought-out ergonomics, easy handling

steamer X3

THE NEWLY DESIGNED SATURATED VAPOUR STEAM CLEANER WITH RESISTANT AND RELIABLE HIGH-QUALITY COMPONENTS.

The captivating design bodes well: its technological and professional housing hides a solid technology. The researchers at AmannGirrbach had the goal of creating a steam cleaner which includes only functions that improves the daily laboratory work and at the same time guarantees maximum reliability and durability. What they came up with is a unit that offers an extremely easy handling and is characterized by high-quality components and innovative features. The new boiler is made out of aluminum and prevents rusting, the ergonomic handle is located in a ready to use position, the water tank filler neck eliminates the need for a funnel, the drainage plug makes descaling easier, and the smooth, rounded surfaces make cleaning easier.

SUMMARY

- _ **Reliable**
- _ **Long durability due to the use of high-quality components**
- _ **The storage tank and housing are made of aluminum and will not rust**
- _ **Resistant teflon tubes**
- _ **Vertically positioned valve (no valve at a 90° angle)**
- _ **Sturdy design, captivating shape**
- _ **Gives added value to the laboratory equipment**
- _ **Smooth surfaces of the housing and of the tubes make cleaning easier**
- _ **Ergonomically, easy to grasp handle**
- _ **Easy to use**
- _ **Large capacity tank - 3.7 litres**
- _ **Visual water level control**
- _ **Can be filled without the need of a funnel**
- _ **The air tank prevents the boiler from being overfilled**
- _ **Easy descaling thanks to drain plug**
- _ **The drain plug is located at the lowest point of the tank - and thus allows to remove calcium deposits completely**
- _ **Can be used either as tabletop unit or wall-mounted**
- _ **Lid without susceptible pressure control valve**

Accessories/Components:

116811	Kalk-X Liquid (4 x 250 ml)
516330	Clean Steamer
516340	Stymo Net
116814	Small sieve, Ø 50 mm
116815	Large sieve, Ø 75 mm

Delivery volume:

116910	Steamer X3 (230V)
116910V115	Steamer X3 (115V)

including: basic unit with mounting template, descaling liquid Kalk-X, water hardness test strips, gasket set for lid

Technical data:

Dimensions d/l/h: 275 x 265 x 455 mm
 Weight: 12,5 kg
 Mains supply: 230 V / 50 Hz
 Machine rating: 1600 W / 1000 W
 E-fuse: T10A
 Boiler volume: 3.7 l
 Vapor pressure: 4.0 bar
 Warm-up time: approx. 25 min

Refill without a funnel

Ergonomical handpiece, ready to hand
